WELCOME

Tirion Homes is delighted to offer the final phase of 2 and 3 bedroom homes at Parc Eirin, Tonyrefail. Parc Eirin is already a thriving low-carbon community and these new homes will help complete this innovative development.

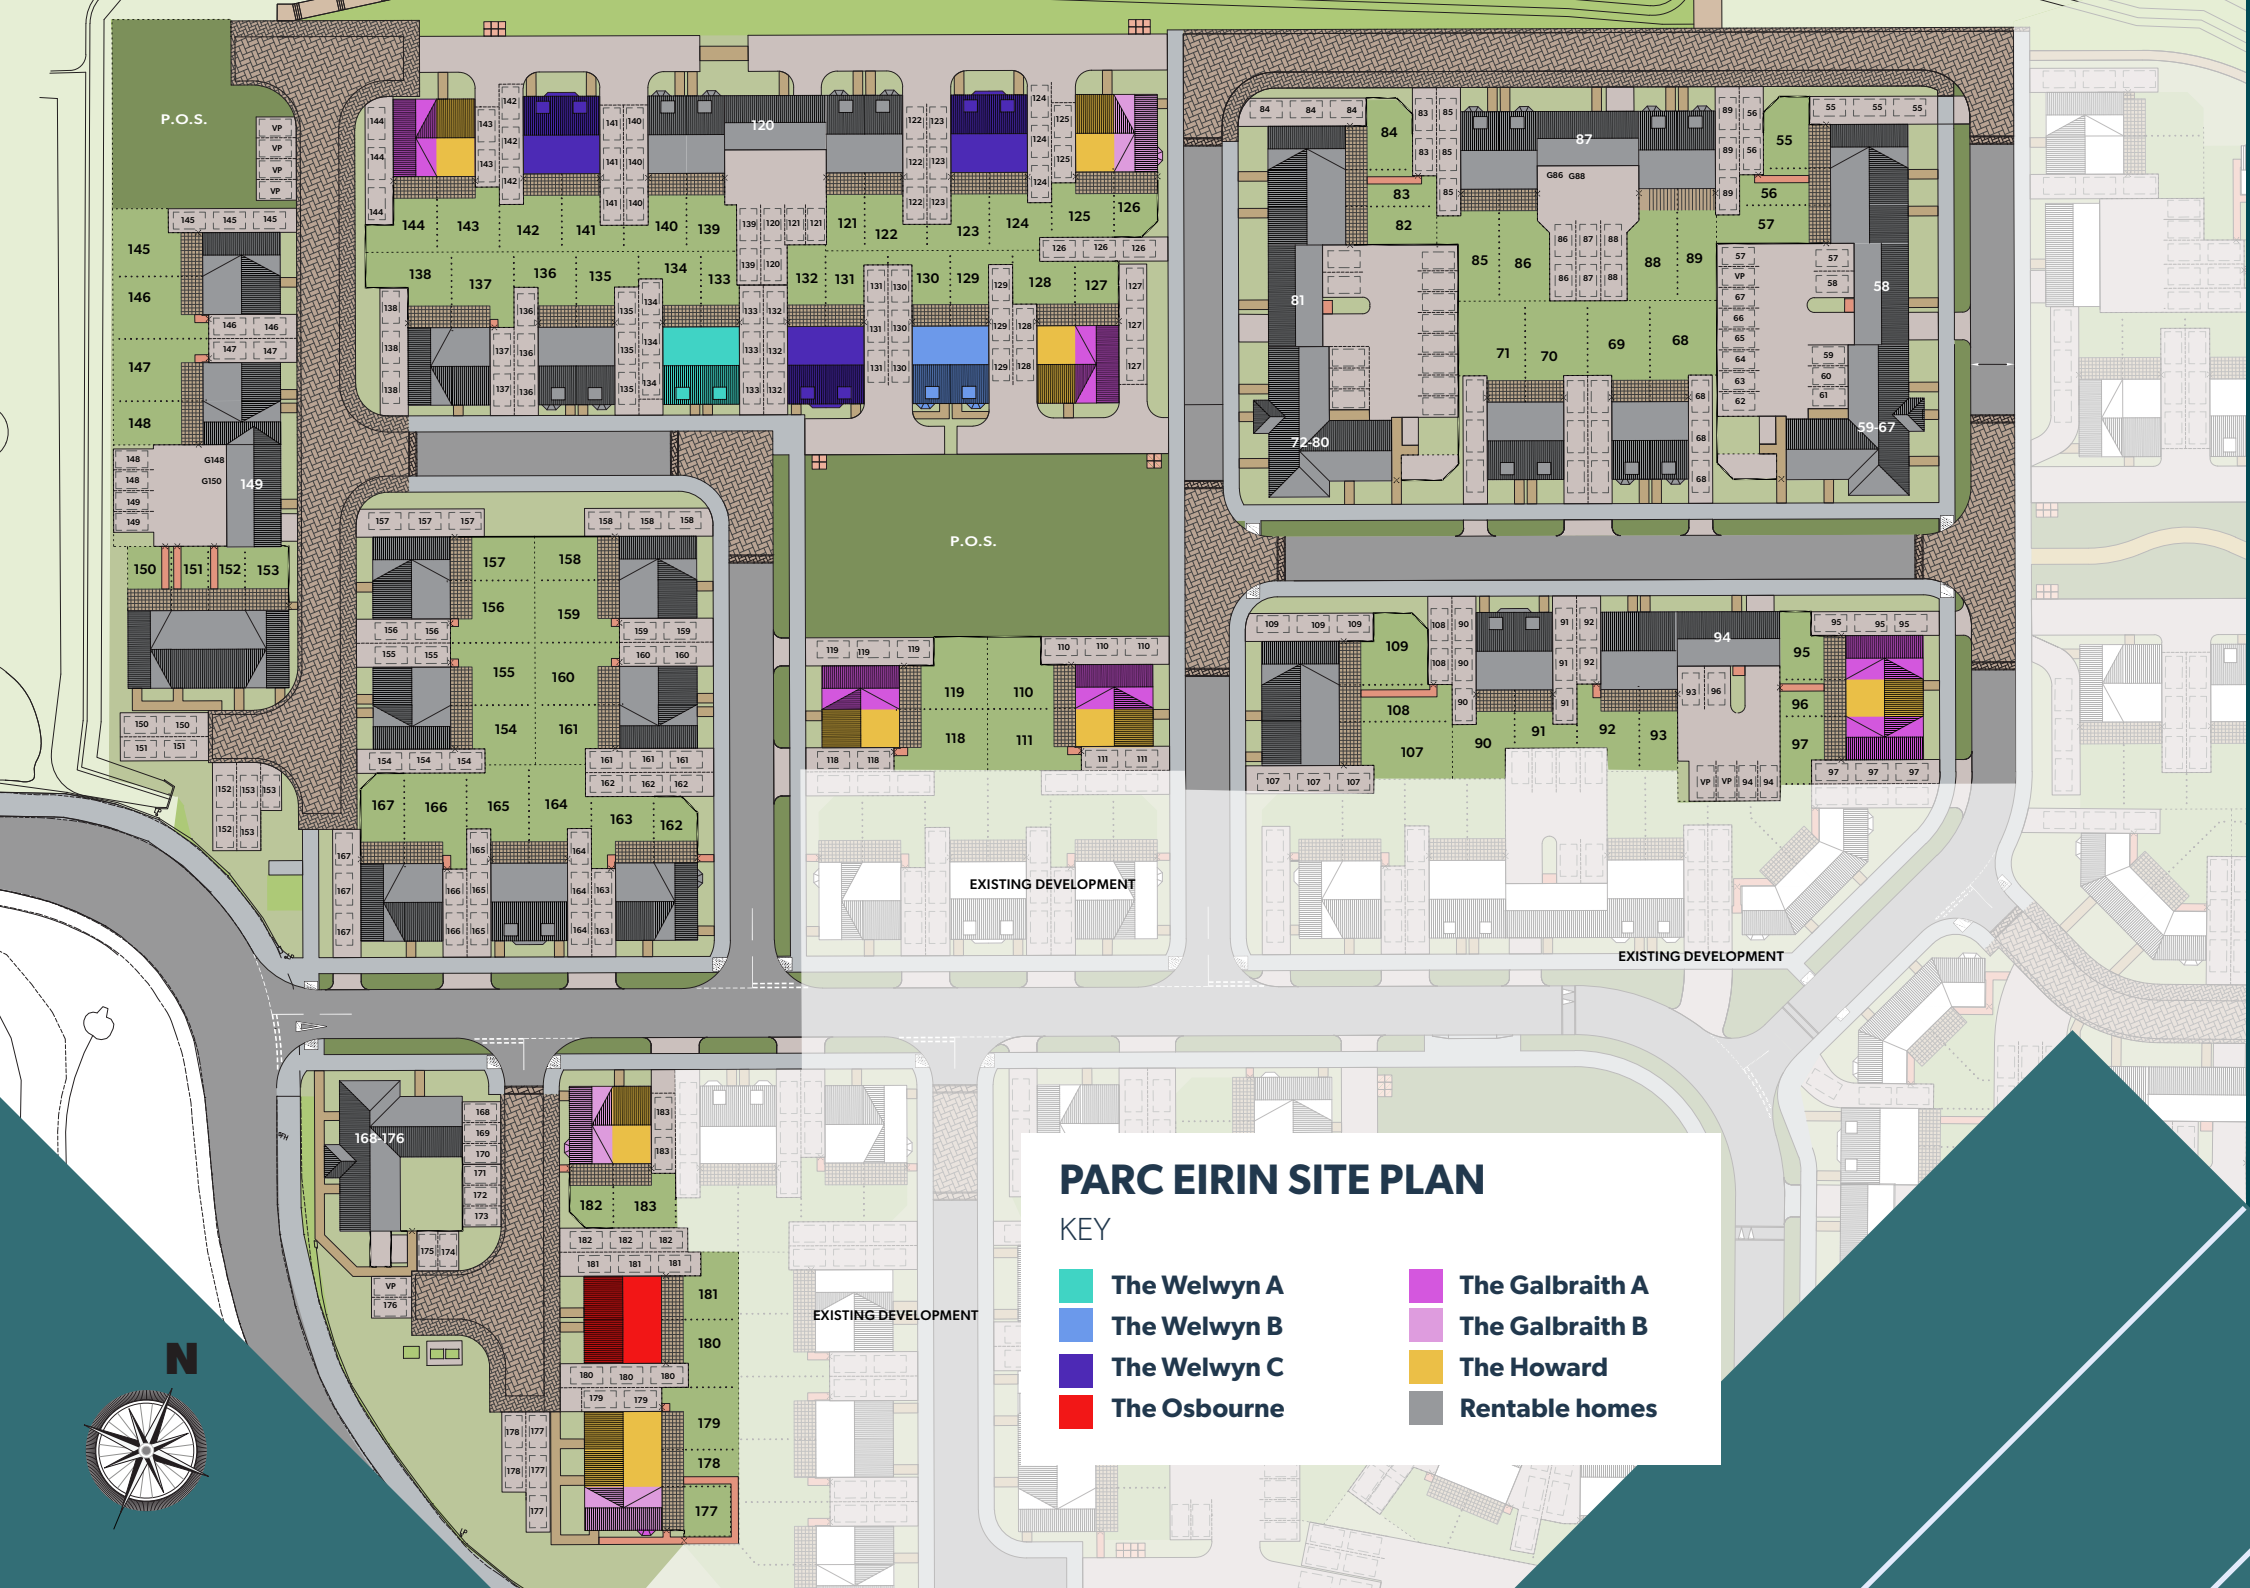

The 30 high-quality, energy efficient homes will benefit from low-carbon, low-cost energy systems, including ground source heat pumps, ensuring your bills will always be at least 15% lower than standard tariffs.

Ideally located with easy access to the M4 and the wider Cardiff Capital Region. Parc Eirin offers the perfect balance of convenience and lifestyle with excellent links to local schools, leisure facilities, and shopping centres just minutes away in Tonyrefail and Talbot Green.

Parc Eirin is the latest development by Tirion Homes, an independent Community Benefit Society, affordable housing developer and estate manager. Creating thriving, aspirational communities is at our core. We are committed to Parc Eirin and will be managing the development to ensure continued success and to maintain the quality of life of our residents in the long-term.

Whether you're starting a family, relocating, or simply looking for a place to call home, Parc Eirin is the ideal place to put down roots and thrive.

Tirion Homes operate a policy of continuous product development and as such all particulars provided in this specification may change. Consequently all details should be regarded as general advice and as such cannot be relied upon as accurately describing any of the Specified Matters prescribed by any Order made under the Property Misdescriptions Act 1991, nor do the contents constitute any part of the contract or to be taken as an indication of warranty or guarantee on any property. Images are representative only and external elevations may vary from plot to plot. Solar panels on the homes at Parc Eirin are subject to practical considerations, such as roof size, orientation of the site and electrical system capacity. These considerations will determine the total number of panels that can be installed on each roof, if any. Please consult the selling agent for further information.

The specification was correct at the time of going to print (June 2025). Tirion Homes is continually reviewing & updating the specification on all home types and therefore reserves the right to change any detail at any time.

LOW-CARBON HOMES

All properties are part of a connected SmartGrid operated by SNRG – resulting in lower-cost, low-carbon electricity from day one. SNRG is your electricity supplier from the day you move in. By continuing with SNRG, you will benefit from the fixed tariffs of the SmartGrid.

Properties are fitted with a ground source Kensa heat pump, a renewable technology which will provide you with efficient heating and hot water all year round, reducing your carbon footprint.

Linked to a geothermal array the ground source heat pump in the properties ensures you have the latest green technology. This uses electricity to concentrate the heat from the ground and pump it around your home.

ABOUT TIRION HOMES

The Tirion Group is an independent not-for-profit residential developer, owner and estate manager; letting and selling homes directly to residents. Our constitution introduces an alternative model for the delivery of affordable homes.

Tirion was created in 2012 by Welsh Government in collaboration with the Principality Building Society. Since that time, we have developed over 1,500 homes across South Wales.

Tirion
Homes

THE WIDER AREA

Parc Eirin is located off the A4093 on Wilfred Way, Tonyrefail. The development is just over 5 miles (10 mins) from Talbot Green shopping centre and 7 miles (12 mins) from M4 (J34), with easy access to Cardiff and throughout South Wales.
